

→ Gouri Choudhury

Gouri Choudhury has more than 4 years of working experience in a multinational Insurance consulting company. She has been part of the Research and Analytics wing of the Global Sales and Marketing team and was responsible for predictive modelling and analysis of revenue data for products and services of the company including building of interactive reports and dashboards using Tableau/PowerBI and creating machine learning models on Python. The reports and analysis greatly helped the marketing team to identify opportunities across various markets. She is currently working as a Data Science Consultant in Singapore.

She has completed her education including her Bachelor's as well as Master's degree from the University of Calcutta majoring in Economics with minors in Statistics and Mathematics.

She has a great zeal and passion for business intelligence and data science and see herself as a Data Scientist having the potential to solve various problems faced by different industries.

Apart from her professional work, Gouri also has a passion for traveling, photography and writing.
